

THE TIMES.

Dr. Thos. N. COCKERILL will deliver an address before the Scott Club of this place, next Monday evening in the old Methodist Church.

The Ladies are invited to attend.

GRAHAM'S Magazine, for October has been received, and fully sustains the former character of the work. The engravings are beautiful and the reading matter excellent.

GODFREY'S Lady's Book for October, is on our table. To such of our friends as wish to subscribe for a work of this kind, we recommend the Lady's Book.

The New Postage Law.
This law went into operation on the 1st of the present month. The postage on the Times at any post office out of the county, within the State, will be as follows:—If prepaid at the office to which the paper is sent, the postage will be 13 cents per year, not prepaid, 26 cents. Will the postmasters at the different offices, call attention to this matter?

SAD VISITATION.—We learn from the Brunswicker that Judge Jacob McDonald is dead! He died of cholera on reaching home last Thursday night week from Jefferson City, where he had been to represent the people of Charleston county; and his wife and an Irishman who worked on the farm, died the next day, of the same plague. No more cases have occurred.

Judge McDonald lived in the forks of the Chariton a few miles east of Keosauqua. He was over forty years of age, and had worked his way up from among the people to being one of the most popular and useful men in the county. Few men in the State were better acquainted with statute law, and his business habits will be missed in the next Legislature.

First Gun from Tennessee.
The following dispatch, says the St. Louis Intelligencer, was sent by the editor of the Nashville Banner to the Louisville Journal. The result of the municipal election in Nashville, where the Whigs usually have a small majority, is always regarded as a telling indication of the result of the State canvass. We have no more doubt of a triumphant majority for Scott and Graham in Tennessee, than in Vermont.

NASHVILLE, Sept. 25.
We have elected a Whig Mayor by two hundred and forty-four majority. Last year the majority was twenty four.

The National Intelligencer says that the Hon. H. Marshall, Minister to China, and family, took leave of their friends in Washington on Monday, and departed on their journey to the capital of that country.

RUFUS CHOATE.—The Boston Atlas says: "We have good authority for stating that Mr. Choate is desirous of making a speech in favor of Scott and Graham, and that, in all probability, some time next week old Faneuil Hall will ring with Choate's clarion voice in their support."

INDIAN AGENT KILLED.—We learn from Maj. J. E. Barry, says the St. Joseph Gazette, who has just arrived from the Council Bluffs Agency, that Major James H. Norwood, Indian Agent for the upper Missouri Agency, was killed by a man named Thompson, at Sargeant's Hill, on the night of the 20th of September. We did not learn the particulars. Maj. Norwood was from North Carolina, where his family reside.

Hon. Thos. H. Benton, returned to St. Louis last Friday, from his late visit to Washington.

A story is in circulation that, in Middleboro' N. Y., some twenty or more of the citizens, in broad daylight, saw what appeared to be an immense (some thousands) number of soldiers, marching and counter-marching, through the air. This strange sight, it is said, was witnessed for the space of two hours or more.

A blacksmith in St. Louis was bitten in the hand by a mad dog last week, and in order to avoid the terrors of hydrophobia, instantly cut off his own hand.

Lieut. G. W. May who fought under Gen. Scott and was twice wounded in the war with Mexico, has for some time past been doing good service for his old commander in New York, Pennsylvania and the New England States. Lieut. May is not a man of fortune, but impelled by a sense of duty has thrown personal interest aside to raise his voice for the Conqueror of Mexico.

Two to Whip.—An old democrat of this country, recently returned from the East, was talking to one of his sons about voting for Pierce, when his son informed him he intended to vote for Gen. Scott. "The d—l you will," says the old fogey, "if you say that again, I will give you a good thrashing, old as you are." "Well," says an older brother, "father, if you whip him for that you will have two to whip, for I shall do the same thing!" The old man postponed the whipping.—[Covington Journal.]

The Presidential Election.
The Washington correspondent of the New York Times, in a letter of late date indulges in the following speculations in regard to the result of the Presidential election. If anything, it is too favorable to the minority candidate, Mr. Pierce.
Gen. Scott's progress through the West is making him personally known to many thousands of people who have been taught to regard him as a haughty soldier, with no feeling nor principle in common with them. The presence and speeches of our gallant leader are sufficient to dispel all the delusions and prejudices begotten by such representations. The intense and universal enthusiasm which he excites, seems to be conclusive of the issue of the canvass. The eagerness with which persons of all shades of opinion crowded about him in Pennsylvania and Ohio, proves that those States, hitherto supposed to be close and doubtful, have turned in his favor! The discontents and quarrels of the Democrats in New York, also secure that State in his favor. The following table presents results warranted by present appearances.

McLEAN'S VOLCANIC OIL LINIMENT
Is a safe and never failing remedy for Rheumatism, Bruises, Sprains, Contractions of the Muscles, Stiffness and Soreness in the Back or Joints, Paralysis, all Local Pains, Burns, Sores, Ulcers, Tumors, Fresh Cuts, Sore Throat, Inflammation, Scaldings or Incurable Limp.

When applied, its soothing influence is almost instantaneous, relieving the most severe pain. It penetrates the flesh to the bone, destroying and removing any diseased matter that may have been secreted, "striking at the very germ of the disease," and producing a healthy and permanent cure. Its powerful and stimulating properties, it excites the muscles and nervous system to a healthy action, thereby imparting new life and strength to muscles, chords, ligaments and flesh that were weakened and dead.

We hear daily of hundreds of sufferers that have used all the various Liniments, Mixtures, Ointments, &c., but could get no relief, and by a few applications of this great Sicilian remedy have been permanently cured.

READ FOR YOURSELVES.
ILLINOIS, April 20, 1852.
MR. JAMES H. McLEAN—Dear Sir: I have been severely afflicted with rheumatism in my shoulder for several years, and when the weather changed it crippled me entirely. I have used a great deal of "Mexican Mustang Liniment," and other Liniments, but could get no relief. Two months ago I went to Collinsville to get some more Mustang Liniment, but Mr. Lancaster, the post master there, said he knew you, and spoke so highly of your "McLean's Volcanic Oil Liniment," that I went to take some of it, and by applying it three times, the pains left me, and I have not been troubled since.

After that I got two little sores on my hand. I went to St. Louis on a very cold day, and got my hands frozen.

By the time I got back home, my hand was terribly frozen, and the pain almost made me crazy. I applied your Liniment, and it relieved me immediately.

Also, my neighbor, Mrs. Swarts, when taking in her wash clothes, accidentally fell; her arm came on the SHARP CORNER OF A LOG.

It became black and swelled dreadfully, so much so that they had to cut the sleeve of her dress to get it off. I gave them some of your Volcanic Oil Liniment, and the next morning she was able to iron her clothes.

I could inform you of many more remarkable cures on man and horses, for
IT ALWAYS CURES.
Every one in this neighborhood uses McLean's Volcanic Oil Liniment, because we have tried it, and find it better than any other Liniment.

Yours, respectfully,
H. N. WEBER.
N. B.—I keep the second lot gate from St. Louis, on the Collinsville Plank Road.
